

## What More Can the Parish Do?

This form should be used to outline an idea, a program or an event that the parish will consider implementing. Answering the following questions will help generate constructive discussion on what you would like the parish to do. Please submit this form to the parish office for consideration.

What is your thought or idea?

What is the purpose or goal?

What are your thoughts or ideas on how the parish could begin this as ministry, help people become disciples or unite our parish community?

Do you have other information or examples that would assist in understanding your idea, program or event?

Are there other parishes in the area that are already doing something like you are proposing and that we can learn from?

Other thoughts to consider:

What date(s) and time do you propose? Where would you like hold it: church, social hall, etc.

Have you checked with the parish office to see the parish calendar? Are there any conflicts?

How could your idea, program or event be paid for?
